

Installing *Outlook* on your iOS device

1 Download *Outlook* on your device and open it. A new window should pop out. Click on “*GET STARTED*”!

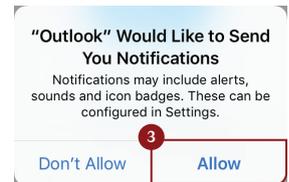

Outlook

A better way to manage your emails.

2 Click “*Notify Me*”

3 When a new window pops out, click “*Allow*”

4 Enter your RSU student e-mail in the window “*Email address*”!

Example:

006647@rsu.edu.lv

5 Click “*Add Account*”

6 When an RSU page opens, sign in using your RSU student e-mail that you usually use!

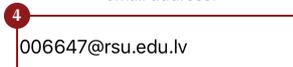

Example:

User: *studentaid@rsu.edu.lv* (E.g.,: *006647@rsu.edu.lv*)

Password: *****

Add Email Account

Enter your work or personal email address.

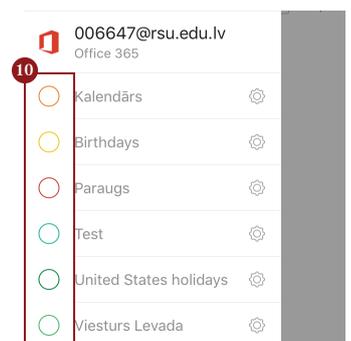

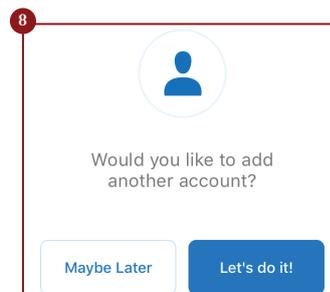

Sign in with your organizational account

7 Click “*Sign in*”

8 Click “*Maybe Later*”

9 In the next window you will find information about *Outlook*. If you would like to find out more about it, click on the arrow. Click “*SKIP*” if you would like to skip this information.

10 Go to Calendar, press on the tree lines on the top left side, choose all the necessary calendars.

11 *Outlook* installation is complete. After synchronization you will be able to see your student e-mail, and your class schedule – in the calendar section.
