Minutes No.2-1/21.03.17

AGREED ON  
Riga Stradiņš University  
Rectorate Meeting of 6 March 2017  
Minutes No.17-10

## **Riga Stradiņš University Energy Management Policy**

The energy management system of Riga Stradiņš University (RSU) is targeted at sustainable development and continuous energy efficiency improvement.

By implementing this policy, RSU undertakes:

- ✓ to define energy efficiency targets and tasks, revise them on a regular basis and provide resources required for achievement thereof;
- ✓ to respect the regulatory requirements and procure compliance with the applicable laws;
- ✓ to support purchase and use of energy efficient products and services;
- ✓ to introduce energy efficient solutions for improvement of already existing infrastructure projects and for development of new infrastructure projects;
- ✓ to set, register and evaluate energy efficiency indicators on a regular basis;
- ✓ to define and implement measures aimed at optimization of energy consumption;
- ✓ to provide qualification upgrading possibilities for responsible employees and to raise awareness of RSU employees on the importance of energy efficiency.

The employees of all RSU structural units are involved in the implementation of the energy management policy.
