It was my dream to become a dentist. I applied to the dentistry program at RSU and was accepted. I moved to Riga alone, but met so many friends and colleagues here. I was taught very well thanks to great professors, doctors and teaching staff. Now I'm a dental doctor. Since summer 2015 I work as a dentist in Stockholm.

Bryar,
Swedish dentistry graduate

At Rīga Stradiņš University I focused on dental surgery. This University offers a more practical approach than others. Furthermore, being in small study groups gives us the opportunity to work more as a team and guarantee more personal relationships with our professors. I truly love studying here despite it sometimes being very demanding and requiring hard work; at the end of the day you can still be proud of what you have achieved.
