# EU funding

Funding opportunities for vaccine related research and development activities can be explored via the Funding and Tenders Portal

[ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home](https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home)

F&T represents convenient single entry point for participants and experts in the funding programmes and tenders managed by the European Commission and other EU bodies.

## EU funding

The European Commission has been at the forefront of supporting research and innovation and coordinating European and global research efforts, including preparedness for pandemics.

So far €4.1 billion has been invested from 2007 to 2020 through the 7th Framework Programme (FP) and Horizon 2020 in infectious diseases research.

In addition to several past, and ongoing, research actions related to coronaviruses and outbreaks, the Commission launched several special actions in 2020, as part of a €1 billion for coronavirus research.

# Horizon Europe National Contact Points

To better understand EU health research funding opportunities, including vaccine related calls, network of National Contact Points (NCPs) has been established as the main structure to provide guidance, practical information, and assistance on all aspects of participation in Horizon Europe and related EU funding opportunities.

Currently Horizon Europe NCPs are national structures established in all EU member states and the states associated to the framework programme.

Latvijas Zinātnes  
padome

# Horizon Europe National Contact Points

- 1) Guidance on choosing relevant Horizon Europe topics and types of action;
- (2) Advice on administrative procedures and contractual issues;
- (3) Training and assistance on proposal writing;
- (4) Distribution of documentation (forms, guidelines, manuals etc.);
- (5) Assistance in partner search.

NCPs are also established in many non-EU and non-associated countries (so called "third countries"), and EC funding is available to most African, Asian and South American countries.
