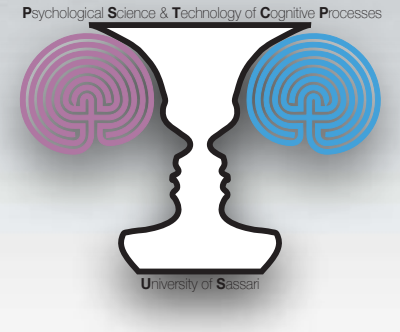
Art & Perception Lab

From perceptual organisation to visual illusions

On the complexity of vision

Baingio Pinna
Univ. of Sassari, Italy



Thanks to:

Prof. ***Agrita Kiopa***
Vice Rector for Science, RSU

Definitions

- A science of illusions starts from a perceived “mismatch/disagreement” between the geometrical/ physical and the phenomenal domains.
- illusions are: “misperceptions”, “deviations” or “errors” in the perception of physical-geometrical attributes

The truth of illusion

What is illusory?

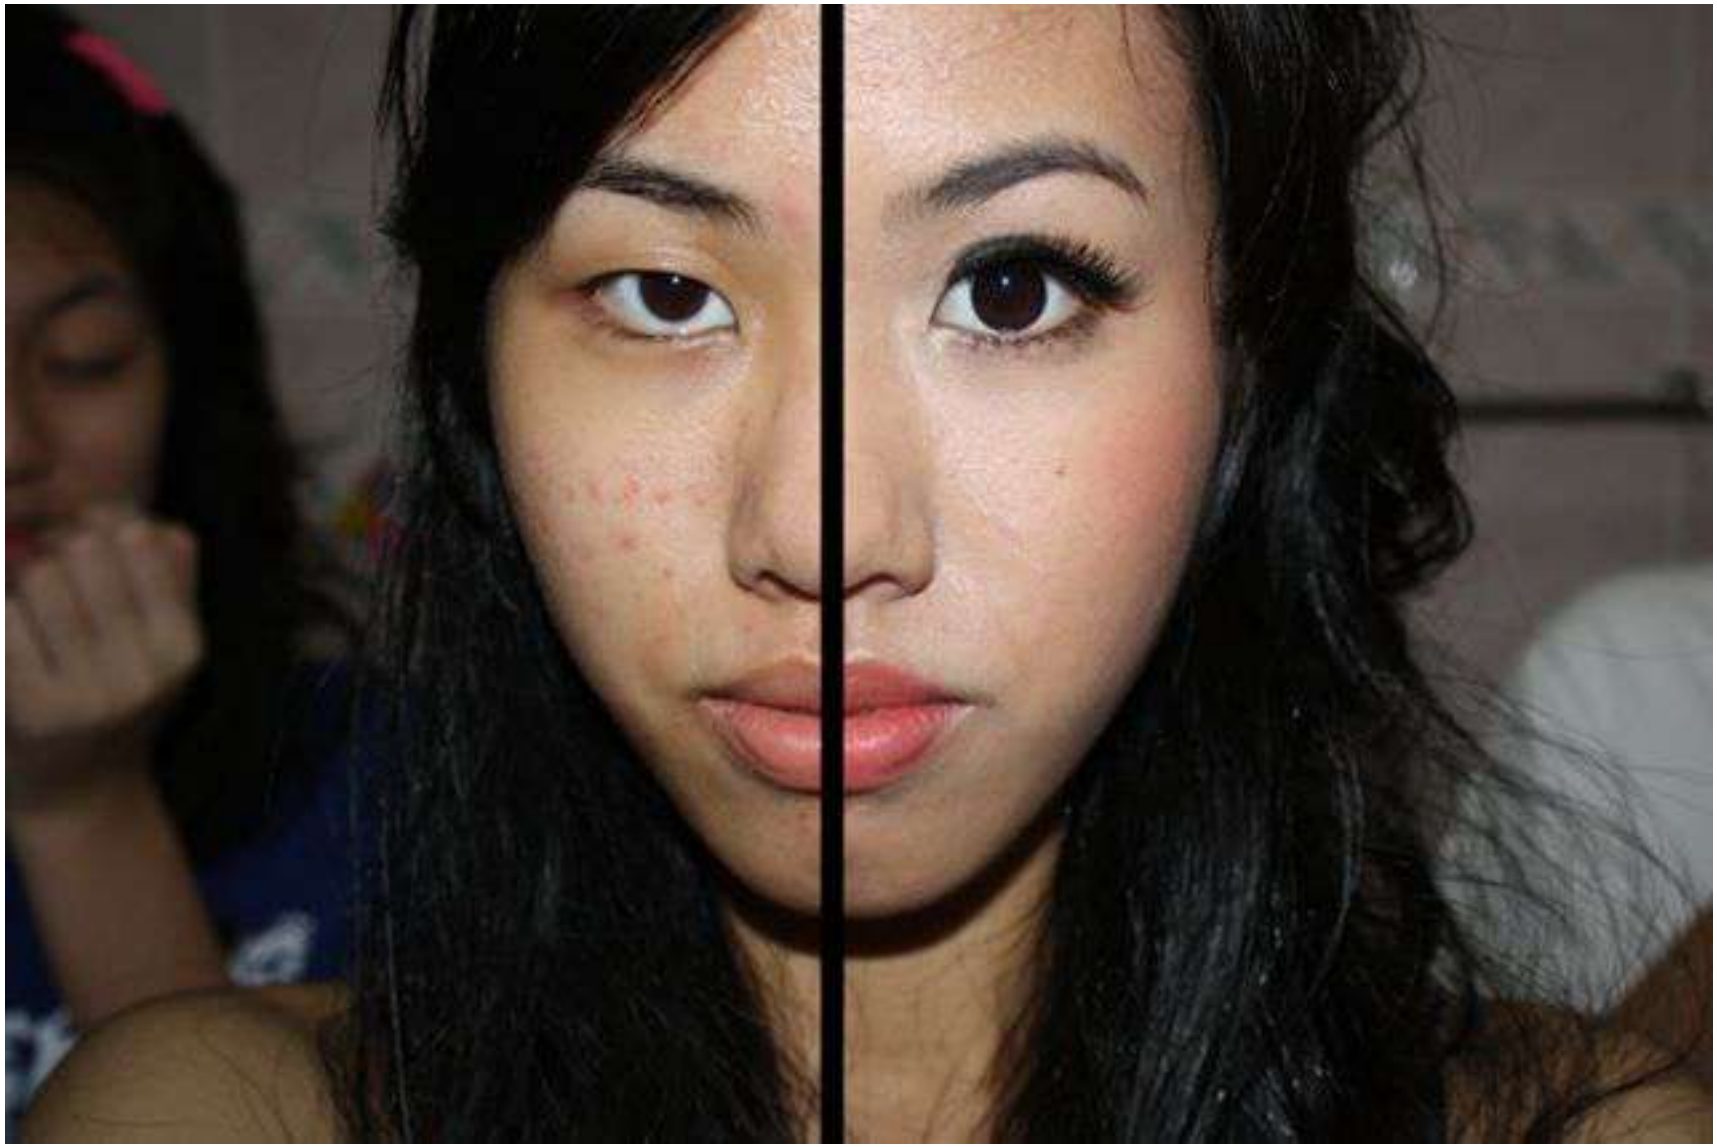
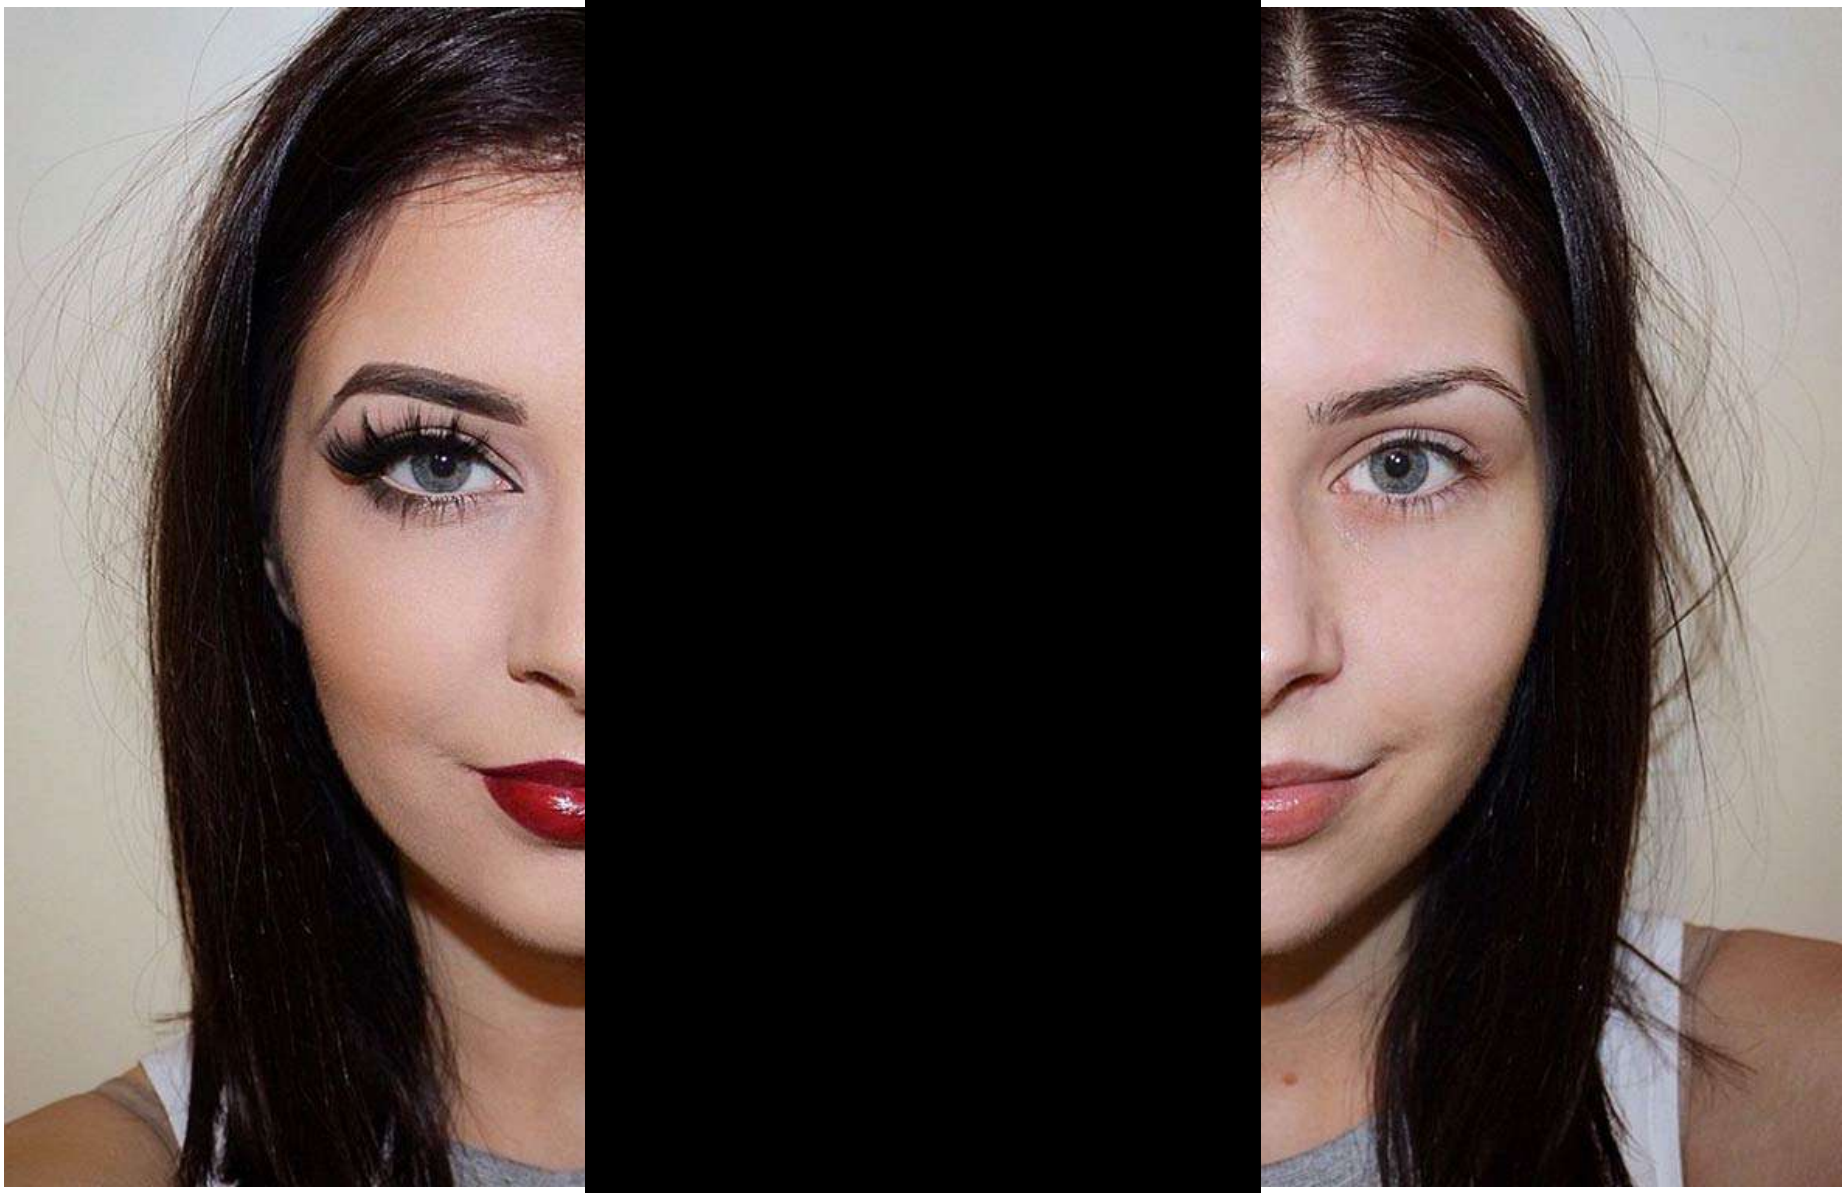
The illusion of truth

What is real?

EDWARDVS III





Conclusions

The truth of illusion and the illusion of truth

- Are illusions useful to understand vision? YES
- Is vision useful to understand illusions? YES
