Does the complexity of the gender topic fascinate you? Are you interested in today's global sexuality issues? Always wanted to attend a course about abortion or IVF? Then we've got your summer all figured out!

We are pleased to announce that we are hosting the 4th edition of our Summer School "Sexual & Reproductive Health & Rights", taking place from 4-14 July 2021, where students from all over the world can interact with each other and our speakers via webinars.

Our educational program covers topics such as family planning, gender, abortion, LGBT, STDs, sexual violence and many more. Lectures will be given in English by renowned teachers of Ghent University as well as prominent professors of international institutions.

Not only is this a great opportunity to discover and learn more about these exciting subjects, it's also the ideal occasion to meet new people from different cultures and backgrounds.
